- Hotel/Motel

FIRE SOAPS™ DISINFECTANT is an FDA Approved & EPA Registered, **Hospital Grade** hard-surface disinfectant/sanitizer.

FIRE SOAPS™ DISINFECTANT is effective against a broad spectrum of bacteria. It is also virucidal, fungicidal and eliminates odor-causing bacteria. When used properly, **FIRE SOAPS™ DISINFECTANT** is proven to kill germs on hard surfaces and to significantly reduce the chance of cross contamination from:

- ⇒ **MRSA** (*methicillin-resistant Staph*)
- ⇒ **Pseudomonas aeruginosa**
- ⇒ **Trichophyton mentagrophytes** (*Athletes' Foot Fungus*)
- ⇒ **Influenza A Virus** (*H1N1 type*)
- ⇒ **E.Coli**
- ⇒ **HIV-1**
- ⇒ **Hepatitis B**
- ⇒ **Salmonella**

An extremely effective disinfectant for use in Institutions (Hospitals & Other Health Care Institutions) and Non-Medical Facilities (EMS & Fire Facilities, Emergency Vehicles, Ambulances, Police Cars, Police Stations, Municipal Government Buildings & Schools. Controls odors and bacterial cross-contamination in public areas such as bathrooms, showers, saunas, whirlpools, locker rooms, drinking fountains, exercise equipment & training facilities). Excellent for EMS and patient care equipment. Perfect for all safety equipment, protective masks, helmets, SCBA packs, turnout gear, boots, gloves, extraction tools, etc..

FIRE SOAPS™ DISINFECTANT is available in a convenient Ready-to-Use 32 oz. spray bottle. This product is effective on hard, non-porous surfaces with a 10 minute contact time.
